

East Craigs Primary School

Positive Relationships Policy

At East Craigs Primary School and Nursery, working together to create positive outcomes for our children is key. Positive relationships play a huge part in this and staff, parents and children should feel able to talk about any school related matter, or anything out of school which is having an impact on their lives - positive or negative.

We all value:

- Open, mutually respectful relationships between parents, staff and children
- Being able to work and play together
- Allowing children to enjoy their childhood and grow up to achieve their full potential
- The opportunity for children to have a good level of support in their early years to allow the best start in life and a readiness to learn in Early Years settings, nursery and school

We do not tolerate:

- Aggression towards children, parents or staff
- Threatening or intimidating behaviour towards children, parents or staff
- Inappropriate language used towards children, parents and staff
- Abuse of children, parents or staff

Our values are in line with the City of Edinburgh Council's core values for schools. These are available to read on the City of Edinburgh Council's website www.edinburgh.gov.uk
